

ARE YOUR MACHINES SECURE ENOUGH TO DETER AND PREVENT PHYSICAL DAMAGE AND LOSS OF CASH?

SAFEGUARD YOUR CASH AND HARDWARE FOR PEACE OF MIND!

Made possible by the INEX high-tech electronics experts, the I-ESEC Security Board monitors changes occurring in your game terminals, ATMs & Kiosks.

I-ESEC is designed to detect and respond to threats like tampering, physical damage & theft—ensuring peace of mind and saving thousands in potential losses.

Advanced sensors monitor environmental changes in real time, enabling remote monitoring with notifications, on-site alarms, and strobe lights to deter theft and prevent costly damages.

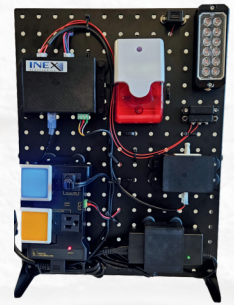

Features:

- Monitors tilt, vibration, temperature, and break-ins
- Monitors up to 4 different profiles simultaneously with customizable trigger and action options.
- Outputs can be used to control strobe lights, buzzers, shrill alarms, sirens, alarm light strips, locks and more
- Autonomous Operation: Automatically sends email notifications in the event of an alarm during remote monitoring.

Ideal For:

- Unattended Game Rooms
- Cash Handling Locations
- Retail Environments
- Warehouses and Storage Facilities
- Any ATM, Redemption Kiosk or Game Terminal requiring physical security

+5V DC & +12V DC from external power supply
